## **DETAILED ACTION**

## Response to Amendment

The Amendment, filed on 1/31/2006, has been entered and acknowledged by the Examiner.

Cancellation of claims 6-8 has been entered.

## Allowable Subject Matter

Claims 1, 3, 5, and 9-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation of a plasma display panel including a heat sink with a base material formed of anisotropic material, fins made of aluminum, and a thermal interface of carbon nanotubes. See applicant's response filed (1/31/2006) for additional explanation. Specifically, examiner finds applicant's argument, that the prior teaches away from the use of a heat sink with an anisotropic base and metal fins, to be convincing.

Regarding claims 3, 5, and 9, claims 3, 5, and 9 are allowable for the reasons given in claim 1 because of their dependency status from claim 1.

Regarding claim 10, the references of the Prior Art of record fails to teach or suggest the combination of the limitations as set forth in claim 10, and specifically comprising the limitation of the manufacture of a plasma display panel including a heat sink with a base material or thermal interface with a anisotropic property, fins made of aluminum, and a thermal interface of carbon nanotubes.

Art Unit: 2879

Regarding claims 11 and 12, claims 11 and 12 are allowable for the reasons given in claim 10 because of their dependency status from claim 10.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Matt P Hodges whose telephone number is (571) 272-2454. The examiner can normally be reached on 7:30 AM to 4:00 PM M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Nimesh Patel can be reached on (571) 272-2457. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
